

LifeSPRINGS™ 75 Plant Derived Minerals

PRODUCT INFORMATION SHEET

The Original LifeSPRINGS Colloidal Minerals

For the last eleven years LifeSPRINGS Colloidal Minerals have been the market leader in providing Australia with the purest and most concentrated colloidal plant derived minerals available to man.

Since the introduction of LifeSPRINGS Colloidal Minerals there has been no change to the product both visually and physically until now.

We would like to introduce to you the brand new LifeSPRINGS 75 Plant Derived Minerals

With constant change in technology and consumer products we have decided to embrace this change rather than reject it. The new LifeSPRINGS 75 Plant Derived Minerals bottle replaces the old LifeSPRINGS Colloidal Minerals bottle with the various changes:

- New Unique Bottle Design
- Easy Pour Bottle Lip
- New Heat Shrunken Labeling
- Product Rewording
 - From Colloidal Minerals to 75 Plant Derived Minerals
- 2 Product Seal Protectors
 - Tear Away Lid Seal
 - Bottle Safety Seal

The Brand New LifeSPRINGS 75 Plant Derived Minerals

Everything looks new, but the product still remains the same. With the constant trouble of defining the term Colloidal Minerals we have begun using the simplified meaning which is Plant Derived Minerals.

We know that you will love the new bottle design while enjoying the same product that has been at the leading edge of Plant Derived Minerals.
